

## Request for Funding Consideration (Stage 1)

Children's Aid Foundation of Canada is the country's leading charity dedicated to improving the lives of children and youth with lived experience in the child welfare system. With the support of generous corporate, foundation, and individual donors, we have been helping children to reach their full potential against all odds since 1979.

Our relationships with funded organizations are essential for the work we do because:

- Our partners and grantees help us to make a positive impact in the lives of children, youth, and their families involved in the child welfare system.
- We rely on partners and grantees to use our granted funds to benefit children and youth.
- Our partners and grantees within the child welfare sector connect us to the cause and help us to learn about the needs of children and youth.
- By putting donor dollars to work and reporting on impact, partners and grantees are instrumental in helping the Foundation secure additional funds to increase our reach to help more children and youth.
- Partners and grantees ensure that we reach children and youth across the country.
- We work with partners to co-design impactful programs to benefit children, youth and families.

This form will help us to learn about new opportunities for working with child welfare organizations and other organizations that serve children and youth involved with the child welfare system.
